Release Notes

Cadac Organice Document Control System (DCS)

Date   17 mar 2020

Version v1.0.0.3536

Cadac Group

1 Introduction

This document contains the release notes for the Cadac Organice DCS (v1.0.0.3536). The following sections describe the release in detail and provide late-breaking or other information that supplements the main documentation.

The Cadac Organice DCS release notes provide an overview of the solved issues, modified features and added features. This overview may not be complete, i.e. there might be other unlisted items that have been solved, modified or added, but these are more technical items without direct commercial/functional value. Please check the chapter about Recent Changes to see if this update is applicable for you.

Organice DCS is primary build for use on a desktop. Usage on mobile devices is not supported.

2 Installation

Manifest
- Release Notes (this file).
- Installation executable
  - Organice DCS Installer for SharePoint 2010.exe
  - Organice DCS Installer for SharePoint 2013.exe

Only to use in combination with Blazon version 16.0 for SharePoint 2013 and SharePoint 2016, supported for IE9, IE10 and IE11, Microsoft Edge and Google Chrome.

3 What's New

Item	Description

4 Recent Changes – 3536

Item	Description
12438	Added an extra attribute to DCSProtection: Mode=hide_except. Using this attribute you can protect/hide for the configured roles except for the configured actions. An example: <Field Name="DocumentSetDescription" Roles="1" Groups="" Actions="View,AddWizard,BulkCreate,BulkUpdate,Upload" Mode="Hide_Except" />
12399	The DCS ribbon has been extended with extra buttons to overview revisions, files, tasks and children. To see the extra buttons for overview of revisions, files and tasks you have to activate the feature Organice Extended Ribbon. To see the button for overview children you have to activate the feature Organice Advanced Bulk.
12386	Implemented advanced settings in Central Admin to manipulate the common workflow actions of the selected items.
12392	Implemented advanced settings in Central Admin to enable preprocessing before workflow actions are executed.
12375	Implemented advanced settings in Central Admin to hide workflow actions.
12367	Added a workbox function to determine whether a pdf file contains 3D objects.
12459	Added the possibility to prefill distributions lists with team leaders.
12416	Added support for showing progress for running workflow actions on controlled document level.

5 Solved bugs

Item	Description
12435	Error repaired in creating or updating a bulk document. This was not possible when any display name of an involved document type (Controlled Document or File) contains one of the following characters: \/?[]*. Also, the length of the display name has a maximum of 31characters.
12420	Error repaired in creating distribution lists. When in a team the option 'Default Reviewer' has value 'Team Leader' and the team does not have a team leader, you could not create a distribution list involving that team.
12419	Creating a controlled document went wrong when in the Range list the sort columns were not part of the view fields of the default view.

6 Known Issues
