

Cadac Organice Client Solutions Installer

Release Notes

Product Release Information

Product:	Cadac Organice Explorer
Release Number:	v1.0.0.4920
Release Date:	November 2018
Customer Support:	For more information or support, please visit our website or email us at support@organice.com

Introduction

This document contains the release notes for the **Cadac Organice Client Solutions Installer** (v1.0.0.4920). The following sections describe the release in detail and provide late-breaking or other information that supplements the main documentation.

The **Cadac Organice Client Solutions Installer** release notes provide an overview of the solved issues, modified features and added features. This overview may not be complete, i.e. there might be other unlisted items that have been solved, modified or added, but these are more technical items without direct commercial/functional value. Please check the chapter about [Recent Changes](#) to see if this update is applicable for you.

Below a compatibility matrix for the different Organice Explorer and Organice Server Solutions Installer versions.

Client	Server	Remarks

- AutoCAD 2007 to 2019
- BricsCAD v9 to v16
- MicroStation V8 XM, V8i
- Brava for SharePoint 2010 and 2013
- SharePoint 2007 to 2016

Organice does partially support Office 365

- Since version v1.0.0.4600, it is possible to add the SharePoint Sites from Office 365 to the navigation tree, retrieve and update information from these sites like other SharePoint sites.

Minimum System Requirements

- .NET Framework 3.5 SP1
- .NET Framework 4.6

Recent Changes - Fixes & Enhancements

- | | |
|------|--|
| 5507 | Unable to clear a field which is not required in the import form.
<i>2 properties in 1 library in different content types, one being required and the other not required; OE is now showing the delete button appropriately, enabling the not required field to be cleared.</i> |
| 5760 | Organice escaped URI's are incorrect which results in an exception and unable to open the list.
<i>Uri's are now correctly escaped by Organice Explorer</i> |
| 5769 | Comma in hyperlink not supported.
<i>Commas in hyperlink properties are now correctly handled.</i> |
| 5943 | The display text on the context menu 'Open with' is not correct.
<i>The display text on the context menu 'Open with' is now correctly shown.</i> |
| 6028 | Organice Explorer stops during a copy action with import dialog.
<i>The issue is solved and Organice Explorer will no longer stop unexpectedly.</i> |
| 6071 | Organice Outlook plug-in does not load the view correctly during the adding of an attachment.
<i>The Organice Outlook plug-in will now load the view correctly during the adding of an attachment, especially for online SharePoint sites.</i> |
