1 Introduction

This document contains the release notes for Cadac Organice Client Solutions Installer (build 1.0.0.4930). The following sections describe the release in detail and provide late-breaking or other information that supplements the main documentation. The Cadac Organice Client Solutions Installer release notes provide an overview of the solved issues, modified features and added features. This overview may not be complete, i.e. there might be other unlisted items that have been solved, modified or added, but these are more technical items without direct commercial/functional value. Please check the chapter about Recent Changes to see if this update is applicable for you.

2 Installation
